

CHAI TALAY
- ESTATE -

OUR COMMITMENT TO BE PLASTIC FREE

Pledge Stage 1: No more single-use plastic by: 6th June 2017 World Ocean Day. As a beachfront property on a tropical island, the owners and staff of the Chai Talay Estate are joining the growing global movement to STOP using plastic and we are asking our customers to support us! We might be the first on Koh Samui but we hope we won't be the last.

We will no longer supply beverages in single-use bottles. Instead, we ask all guests to bring their own refillable bottles and for those without we have a range of branded aluminium water bottles on sale should they prefer. We have large glass water dispensers dotted around the properties that will be kept cool and act as a 'refilling station'. We will serve water in glass bottles and we will suspend any use of plastic straws/cutlery/crockery.

Pledge stage 2: To use recyclable bags for ALL shopping, including food shopping from the market. There will be no single use plastic bags or containers
